

MPA Engineering have a fleet of highly skilled engineers, technicians and electricians that support vast sectors of the electrical and automation industry in the surrounding areas of Ipswich, Brisbane, Queensland and far beyond!

With our head office in Ipswich, Queensland, we also service clients through regional offices in Townsville, Caboolture and Melbourne as well as our international facility in Thailand. As we are a subsidiary of Aquatec Maxcon Group, we also have satellite offices in Melbourne, Victoria and Sydney, New South Wales.

The MPA Engineering team provide our clients with a 24/7 breakdown service for peace of mind, as we know that equipment will not always fail during business hours.

We offer a range of services from maintenance, repairs and upgrades through to data and communications management and installation in industrial and commercial environments.
